Its not wise to upset a Wookiee

© & ™ Lucasfilm Ltd.

- When a player's unit suffers wounds, that player chooses a mini from that unit and assigns wound tokens to that mini until either all wounds are suffered or that mini is defeated. If there are unassigned wounds remaining after a mini is defeated, the player chooses another mini from the same unit and repeats this process until either every mini in the unit is defeated or all wounds have been suffered.
- 
Wound Token
- The unit leader cannot be chosen to suffer wounds unless it is the only mini in the unit that is in line of sight of the attack, if it is the only wounded mini in the unit, or if it is the last mini in the unit.
 - During an attack, if line of sight to a mini in the defender is blocked from all minis in the attacker, that mini in the defender cannot suffer wounds.
 - A mini with at least one wound token assigned to it is wounded. When assigning wound tokens, wounded minis must be chosen to suffer wounds before minis that do not have wound tokens. If the unit leader is wounded, it must be chosen to suffer wounds before minis that do not have wound tokens. If two or more minis in the same unit are wounded, the unit with more wounds must be chosen to suffer wounds before minis with fewer wounds.
 - A unit with at least one wounded mini is considered wounded.
